QUESTIONS

FREQUENTLY ASKED QUESTIONS

Will this rear bumper fit my truck?

It is listed for Ford F-250 F-350 Super Duty trucks from 2023 through 2026. Send us your year, make, model, trim and VIN before you order and we will confirm the fit for your exact truck.

What color is it and will it match my truck?

The factory finish is Antimatter Blue, as photographed. Factory paint fades differently on every truck, so even the correct color code can differ in shade from your existing panels; a body shop can blend it if needed.

Does it have parking sensor holes?

Yes. It has the factory parking sensor holes, so it fits trucks equipped with parking sensors. Your sensors transfer over; they are not included unless the listing says so.

Is this part new? What does OEM take-off mean?

It is a genuine factory part removed from another truck, usually at very low mileage when the truck was upfitted, so it is sold as used. The photos show its actual condition. It carries our 90-day parts-only limited warranty.

What condition is it in?

As inspected: This unit has paint protection film (PPF) applied. The paint protection film (PPF) shows some bubbling and peeling. This describes the film only, not the paint underneath. The condition of the paint underneath the PPF is unknown. Per the operator, the film was applied earlier in the vehicle's life. This is background context only and is not a statement about the condition of the paint underneath the film. A ding on the RIGHT SIDE. The photos show the exact unit; look at every one before you order and ask us for more if you want a closer view of any area.

Are the photos of the exact part I will receive?

Yes. Every used and take-off listing is photographed individually and you receive the unit in the photos.
